

15mm Figures for use with 5 Parsecs from Home

This is a consolidated list of the [15mm Khurasan Sci-Fi Miniatures](#) that might fit into a 5 Parsecs From Home Universe. There is definitely room for interpretation here. I use many of these figures in my campaign. I found that making this list was helpful as the Khurasan website is expansive and it is rather hard to find what you want without spending a lot of time searching. I did my best to match up figures with 5PFH categories but it is not perfect. There are a lot of other things from the Khurasan website that didn't make it into this list, like bug swarms and a whole lot of sci-fi vehicles.
