

Pavisse Team (draft for beta testing)

The pavisse team is a two man unit; one individual uses a bow whilst the other provides mobile support and reloads.

Archer 1: Bow, 12 x arrows, 1 x one handed weapon (up to 115cms), 6 x throwing weapons (coreless, up to 45cms), back up dagger, 1 x 'buckler' shield (up to 45cms circumference).

Archer 2: Tower Shield, 12 x arrows, 1 x one handed weapon (up to 115cms), 6 x throwing weapons (coreless, up to 45cms), back up dagger.

Rules: the team must stay together up until all arrows (up to 24) and throwing weapons (up to 12) have been used in a phase. They will then function as skirmishers.

**Not even close to a historical Pavisse set up, but *meh*.
