

Radioplays and Old Time Radio

[parent_page_homepage](#)

Commercial Radioplays

- [http://www.bigfinish.com/ Big Finish Productions](http://www.bigfinish.com/) my personal favourite, with all the best British scifi series and others being made - I recommend the 12 month download subscription 😊
 - Shows: Doctor Who, Sapphire & Steel, Bernice Summerfield, Stargate, Stargate Atlantis, 2000 AD (Mostly Judge Dredd, with some Strontium Dog), Dark Shadows, The Tomorrow People
- [http://www.bbvonline.co.uk BBV Online](http://www.bbvonline.co.uk) - a somewhat unofficial producer of British scifi
 - Shows: [Faction Paradox](#) parts 1-3, Stories of the Professor and Ace (some quite nice character developmental pieces too - but there is no use of copyrighted names)
- [http://www.kaldorcity.com/news.html Magic Bullet](http://www.kaldorcity.com/news.html) produce even more of the best British scifi series
 - Shows: Kaldor City (Avon goes to Kaldor from Robots of Death), [Faction Paradox](#) parts 4-6+, Blake's 7
- [http://www.noisemonster.com/news/index.shtml Noise Monster Productions](http://www.noisemonster.com/news/index.shtml) - needs a new index page, but the news page is fine 😊
 - Shows: Space 1889

Radioplay Podcasts

- [http://www.bbc.co.uk/radio/podcasts/directory/station/radio4/ BBC4 Podcasts](http://www.bbc.co.uk/radio/podcasts/directory/station/radio4/) most of their shows are available - if only for a limited time after initial broadcast.
- [http://decoderring.libsyn.com/ Decoder Ring Theatre](http://decoderring.libsyn.com/) for superhero and mystery

Audiobook Podcasts

(thanks to silvermoon_wolf)

- [http://escapepod.org/ Escape Pod](http://escapepod.org/) - speculative fiction.
- [http://podcastle.org/ PodCastle](http://podcastle.org/) - fantasy.
- [http://pseudopod.org/ PseudoPod](http://pseudopod.org/) - horror.

Old Time Radio

Comedy

- [http://home.alphalink.com.au/~robertd/GoonShowmp3.html Robert Dickson's Goon Show MP3 Page](http://home.alphalink.com.au/~robertd/GoonShowmp3.html) - closed as of 2004 but worth looking at the <http://home.alphalink.com.au/~robertd/GoonShowLinks.html> links to other Goon Show sites

Commercial

- [OTRcat](#) covers many genres and sells CDs of the shows.
- <http://www.digitaldeliftp.com/>

Streaming Content

- <http://radio.macinmind.com/> [AM 1710 Antioch](#) Scheduling of shows is an automated process where shows are selected by the following priority:
 1. Shows that match today's date that have not played recently
 2. Shows that match today's date regardless of when they last played
 3. Shows that match yesterday's date that haven't played recently
 4. Shows that match the day before yesterday's date that haven't played recently
 5. Randomly selected shows that haven't played recently.
- [OTRNetwork](#) has an alphabetised mixed British and USA collection of streaming content for realplayer.
- <http://www.otrplotspot.com/MainMenu.htm> [The OTR Plot Spot](#) has some streaming content, and plot synopses for many shows.

Downloadable Content

- <http://www.archive.org/details/oldtimeradio> [The Internet Archive](#) although mostly known for the archiving of dead websites, this joint USA library project also collects and makes available a lot of OTR content in the form of downloadable zip archives, mp3 files or may be streamed. Quite probably the largest collection of them all.
- <http://otrfan.com> [Old Time Radio Fan](#) has content that changes on a daily basis.
