

The Mistimed

By Pogo ([original post](#))

This bald gentleman in his mid 40s appears obsessed with time. He frequently checks his wrist watch, his pocket watch (with a very handsome fob), or his PDA. He has the NIST timeserver bookmarked. A large clock dominates his living room, and a digital alarm clock is beside his bed. It's kind of odd then, that none of these devices agree to within 10 minutes of each other.
