

Bubble of Silence

With this spell, the wizard creates an invisible bubble centered upon himself. Sounds that originate outside of the bubble cannot enter, and sounds that originate inside the bubble cannot leave it, but creatures inside the bubble can hear each other normally. In addition, the bubble provides protection to all inside of it from sonic-based attacks (such as a siren's song or a sound-based spell).

Rules-wise, this spell is purchased so that the "area of effect" is the borders of the 2 meter area in question, rather than the full volume.
