

# Midgardr

The Midgardr are a diverse, primitive race. They do not have a world-spanning government. Characters from Midgard have a distinct disadvantage on any of the other Eight Worlds or their colonies, lacking technical expertise. They are no less intelligent than [Asgardr](#) or [Vanaheimr](#), and often catch up fast once you make them understand they aren't dead and [Asgard](#) isn't the "Home of the Gods."

Midgardr are built on 75 points with up to 75 points in Disadvantages. If not already acclimated to the Nine Worlds, they start with the *Social Limitation: Primitive* for 20 points.
